# Aquarius Energy

*Community is essential,  
for alone, our vision is too narrow  
to see all that must be seen.  
Together, our vision widens and  
strength is renewed.*

~ Mark Morrison-Reed ~

## **Inner Peace & Self-Love is the Way to Freedom & Liberation for ALL Life!**

Aquarius has to integrate the self-love lesson of Leo, in order to make its unique contribution to the community and reminds you to think outside the box (Aquarius/Uranus) & follow your heart (Leo/Sun) for the betterment of all. What has changed on a \*fundamental\* level (Cancer/Capricorn ~ personal/professional) for you, that has now made you aware of how vital it is to honor your essential nature (Leo/Sun) so you are able to contribute to the whole (Aquarius/Uranus) in a more useful and delicious way? It is time for you to further define truth and happiness for yourself. It can no longer follow the formula of generations past. You have direct access to this potent Uranian energy and you can now connect directly to a UNIQUE VISION OF LIFE, COMMUNITY AND THE PLANET.

If you have been getting in-sync with your personal cycles and the current energy, harmonizing with nature more often, and vibrating at a new (and Higher) frequency, catching glimpses of your new reality, you are on the right track. Part of your covenant with the Universe, to be here at this time, is to usher in this new era. Your consciousness IS your contribution, how you use your energy at this time is setting the tone for generations to come. When you step out of "survival mode" even for a second, your perspective shifts and you see that you are participating at the dawn of a new age.

The beginning is the most delicate stage of evolution. You are likewise beginning anew (on one or many levels in your life). Choices made now are crucial to your long-term plan. Aquarius time is the perfect time to broaden the scope of your vision. If hindsight is 20/20, then what would you do differently NOW/TODAY to align your life and daily routine with your deepest heart's desire? For example, I've been using the moving metaphor lately because we have been "moving" in to a brand new, and long-term cycle.

~ Say you had to move next month, what amenities would you look for that you did not think of when choosing the place you currently reside in?

~ In relationships, what would you choose differently if you were to start over at this time?

~ In career choices, how different would your career path be if you chose something you love and are passionate about versus what paid the most or had the most prestige, or worse, what someone else wanted you to do?

This is the time to apply these standard questions to the current \*Time\* and situation. How have you truly \*moved\* ... in consciousness and in reality? This is a prime opportunity to set new intentions for living your Truth & Purpose. The issues, people and circumstances that are leaving your life at this time are moving out in Divine Time. That is creating a vacuum for you to start fresh, with a clean slate. Choose wisely, be prepared to work hard but take time to recognize every blessing along the way. When you work from the heart, with passion and purpose, the angels pave the way!

*The future has a way of ...  
arriving UN-announced!*
