

***GEMINI/SAGITTARIUS* ~ 2010-2013**
Eclipses & Nodes: Annual Changes & Crossroads

*It is not the strongest of the species that survives,
nor the most intelligent, but
the one most responsive to change.*

~ Charles Darwin ~

We are going to discuss *GEMINI/SAGITTARIUS* Energy in general, which will also be directly affecting *VIRGO/PISCES* energies as well. The North Node will be in *SAGITTARIUS* ~ March 3, 2011 -thru- August 29, 2012 and then it moves in to *SCORPIO*. So too will the Eclipses *OVERLAP* between these two dynamics, providing an underlying theme which infuses the Current Life Path (North Node) with Authentic Truth (Sag) and Authentic Power (Scorpio) ... if you're clarifying your intentions and co-creating with the energies. This is a time when we must release the past and build the future while staying *PRESENT*.

Eclipses have 10 & 20 year Cycles and the Nodes have a 19-year Cycle. So we will cover past, present and future Cycles, while anchoring our *Group* Intention (Power Circle). These activations last about 3-years, which *anchors* the larger 10-and-20-year Cycles. This is the energy we will be working with, together, over the coming years. These energies support seeding anew *AND* releasing that which has run its course.

The underlying theme has recently shifted from Capricorn/Cancer to Sagittarius/Gemini. The North Node is not a "planet", but a point in the sky between the Sun (outer Self) and Moon (inner Self) representing Life Path (and South Node is Past Life Path) ~ they are most related to the Lunar Cycles, indicating "heart-center" is more important than outward appearance. We've had about 18-months to cultivate and renew the fundamentals of material structure & security (Capricorn) and emotional nourishment & security (Cancer). Now, the shift of focus centers around navigating the North Node (Current Path) with faith and wisdom (Sagittarius) while recalibrating the South Node (Past Path) of how we reason and communicate (Gemini).

This energy is about developing a *NEW* 19-year Truth & Story, based on wisdom gained from life experience, which is far deeper and broader than the "facts" might indicate. It is time to be responsible for the story you're telling. The Nodes indicate "life path" so for this 18-month period, we are all being re-aligned with Faith, Truth & Wisdom (Sagittarius) while releasing past ideas, thoughts and concepts (Gemini) which are no longer valid. At this pivotal time, more information has been revealed and more is still yet to be uncovered. It is time for a Higher Truth and your own Inner Wisdom to guide your steps.

"We have Eclipses every year so there is ALWAYS energy for change available. The Signs that these Eclipses fall in express the theme, energy and lesson(s) of that *change*. I did a little tracking and found that like 2009 and 2011, there are other years which bring 6 Eclipses, rather than the usual 4 (and sometimes 5). And on very rare occasions, years which bring 7 Eclipses in one calendar year.

It happens, apparently, at least once in a decade. Because Eclipses represent pattern-breaking and permanent change, endings and new beginnings, you can see that these years always accompany intense shifts affecting individuals, as well as the Collective. In all these years, the *intense* shifts come on the following *3* axes consistently: Gemini/Sagittarius ~ Cancer/Capricorn ~ Leo/Aquarius.

These energies and lessons lead us to conceive a new Truth/Story for ourselves and our world (Gemini/Sag); create, contain, nurture, protect and be responsible for it in 3-D (Cancer/Capricorn); and be authentic, lead by example and share our individual and collective brilliance with the global family ~ which includes ALL LIFE (Leo/Aquarius) on this planet. There are *overlap* years (with the Signs), but always, the entire set of Cancer/Capricorn is at the *Center*. Do any of the following years stand out to you, either personally or historically?"

*It takes a lot of courage to release
the familiar and seemingly secure,
to embrace the new.*

*But there is no real security in
what is no longer meaningful.*

*There is more security in
the adventurous and exciting,
for in movement there is life, and
in change there is power.*
